

QSDA PRO

v3.7.2

August 12, 2026

Housekeeping: the error on Tools then Report above 1000 individual items, a master measure tag error on some apps, and collections going missing from the offline app list are all sorted.

FIXES

- Fixed an error on Tools then Report when more than 1000 individual items were present.
- Fixed a reported error for some apps relating to master measure tags.
- Fixed some collections missing from the offline app list.
