

"Your MotioPI product saved the day when a user was deleted from our Active Directory without our realizing that there were important queries and reports in his 'My Folders'. I was able to identify the orphaned entries and get them recovered using your tool. Keep up the great work."

– Elizabeth Mayfield,
DRS Tech.

"Motio has saved our hides again! We just recovered a lost model from the content store. You guys are way toooo awesome!"

– Ellis Makoha,
Cognos Administrator

MotioPI is a free tool for IBM Cognos Analytics professionals that saves you time and effort with common content management tasks. Readily answer questions around user access, storage, content, and schedules. With MotioPI, you can:

- Recover deleted Cognos user content
- Ensure correct security roles are set
- Batch validate Cognos report and objects
- Search and identify specific BI content
- Validate scheduled jobs & reports
- Manage Cognos storage capacity

MotioPI Pro extends the capabilities of the free edition by adding options for editing and mass updates to further save time and effort via automation of common content tasks. With the Pro edition you can use features such as:

- Search & replace values on Cognos objects in bulk
- Manage scheduled jobs/reports and their recipients
- Edit models and automatically apply changes to dependent Cognos objects
- Automatically update referencing objects for deleted/moved Cognos content
- Free up space with the download/delete action that archives historical Cognos report outputs
- Make bulk ownership changes to Cognos content when employees change roles or leave an organization
- Apply changes to portal tabs, home pages, group & role memberships for entire groups of users
- Replicate report fragments (headers/footers, queries, local styles, etc.) onto groups of reports

Join our more than 1000 users and get the **MotioPI** edition that's right for you. Review and answer questions around Cognos content with ease, recover lost content, or use the power of batch updating Cognos objects to save time and effort.

MotioPI Free
